# BUSINESS OFFERS

## MOBILE, WEB AND CONSOLE GAME DEVELOPMENT

We make games for a fixed price or at a net cost + % of profit

We are competent in creating games from concept to release and support. We are not only making our own games, but also can develop any game for you: casual, mid-core, social, cross-platform or multiplayer.

## BRAND GAMES ADVERTISING YOUR PRODUCTS

In-game advertising is game development as a marketing tool. For example, a Match3 game in M&M's style attracts the audience because of brand popularity; getting into the top game lists attracts other game players to the brand, and, as a result, brand product (chocolate candy) sales increase. Other examples: McDonalds videogame, CocaCola escape.

## EDUCATIONAL GAMES FOR CHILDREN

We can make educational and developing games for children of any age to develop logical, mathematical, physical, chemical, and biological skills.

## PARTNERSHIP

We are ready to offer programmers and artists department to big studios for mutual project realization.

We are open to cooperation with producers and investors having an interesting project or groundwork.

## MAKING APPS FOR VIRTUAL REALITY

Getting use of virtual reality technology, we offer:

- Virtual tours of houses at the process of construction - the apartment buyer puts a help on to choose the interior in realtime
- Choosing auto salon interior
- Escape room
- Shooting range
- 3D-puzzle games

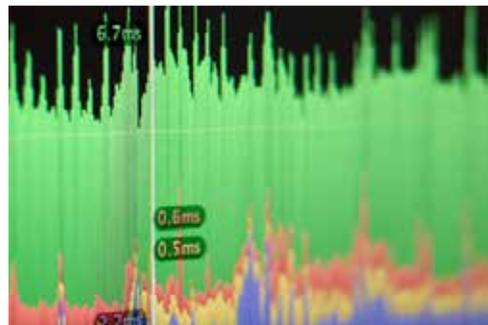

## AUDIT AND CONSULTING

We offer technical audit services of game development quality: architecture, productivity, code, expandability.

Cost estimation.

Market analysis.

## EDUCATIONAL GAMES FOR COMPANIES

We can make games for professional staff training.

Training objectives:

- explaining cybersecurity issues for clerks at the office
- new skill development
- team building games
- interactive testing and examination.

## PORTING

We also offer game migration from one platform to another (iOS -> Android, Web -> mobile, or any other combination).

Great opportunities for your business - we are open to any offer!

# STEAM DEFENSE

Steam Defense™ is a side-scrolling real-time strategy in a vivid tropical world of the wild planet Gloria-6, covered with shady woods, where colonists from Earth, torn from home, are forced to confront the mysterious and formidable Dryans - an intelligent race of Gloria-6 aborigines jealously guarding their secrets from strangers!

In Steam Defense you will build a base, collect resources, research technologies, and hire

troops to attack enemy. Your enemies are native creatures (Tremendor, Druid, Dragon and others) with leader Sister of the Moon who can use spells of Chain Lightning, Tornado, Blizzard and even Earthquake against your army.

But you can resist using infantry, aviation, tanks and artillery. Control your hero Vincent Gear to use Rifle, Grenades, Flamethrower and jetpack that burns your opponents. Furthermore,

the hero gains experience to be used to improve skills.

There is a lot of strategies to win: using tanks or aviation, researching troops or hero's weapons, blitzkrieg or long development. Excellent playing skills are especially important in multiplayer (PvP).

Do your best and defeat all enemies and bosses to complete 2 campaigns.

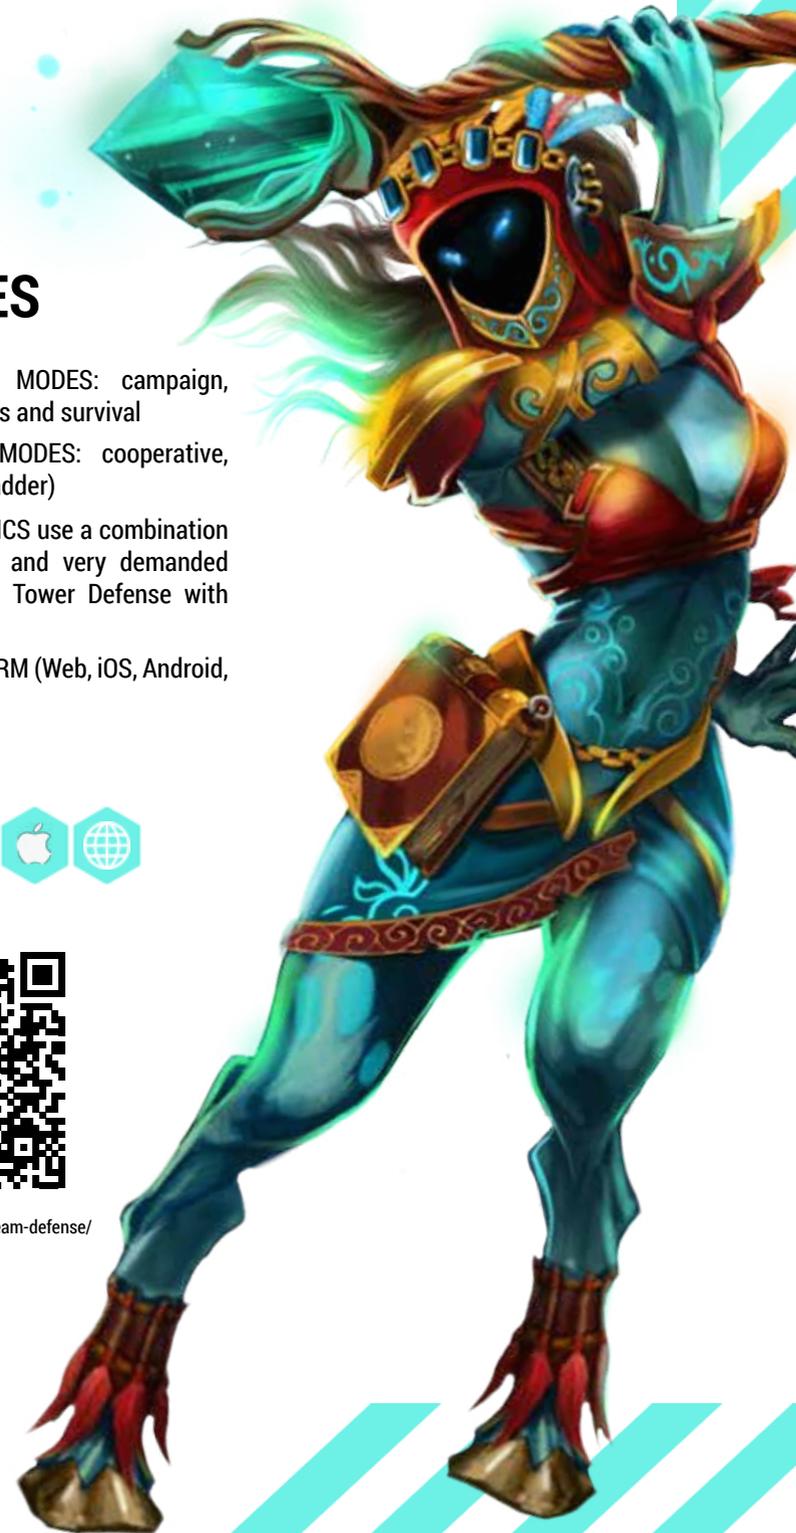

## FEATURES

- SINGLEPLAYER MODES: campaign, skirmish, endless and survival
- MULTIPLAYER MODES: cooperative, deathmatch (+ladder)
- GAME MECHANICS use a combination of two popular and very demanded genres : RTS + Tower Defense with RPG elements
- CROSS-PLATFORM (Web, iOS, Android, Win, Linux, Mac)
- ONLINE SAVES
